WEEKLY GOLD MINERS INDEX

DAILY GOLD MINERS INDEX

A strong ACCUMULATION Curve on the Weekly GDx, and a good Start on a Golden Cross looking into the Late spring of this year, on the Daily. The real deal is we can take one more short leg up perhaps before this rally runs out of steam and corrects back into Mid April, between the 50 DMA and the 200 DMA on the Daily Chart. The upleg will either be weaker or less likely since the Daily MACD has turned down. Which it is, remains to be seen. Sign-on while we track them for you.
