

GOLD MINER OSCILLATOR MAY 13, 2014

Both Volume & Breadth Oscillators Twitching on BUY signals. The Breadth is 2% under an Upside Cross-over, and the Volume (Bubba) sits atop an Upside Cross-over "in-motion".

<< Thats Bubba, Gold Miner Oscillator(volume) The similarity btwn now and December past is too obvious to miss, and again, at that time, as well, pessimism was so thick it could be cut and sold like fudge.

GOLD MINER OSCILLATOR Analysis MAY 13, 2014

Despite everything this is a month long consolidation & Base.
The "Line In The Sand" appears to be about 23.50 GD_X.

What I found fascinating while reviewing the **5 RULES OF SMACKDOWN**

is the volume of paper was 2.5X NEWMONT MINING's 2013 Production in OZ!

FAST FORWARD to NEWMONT's AGM, where the CFO stands up and explains that he was able to sell ALL of NEWMONT's production for this year, last year, and a half a year forward in ONE TRANSACTION ! CAN you hear the applause when he tells them that he so they could get their \$\$ all at once even though they probably left btwn \$100 – 200 Million on the table by smacking it so hard it cleaned ALL bids ! Some how I think the stockholders would have lynched that CFO right then and there. Normal Liquidation, **NOT !!**
I thought you might enjoy that comparison.

Lets look at the freaky volatility hitting the metals, and the rules to tell when it's a smack down:

1. Always GIMPOD at time of **ILLIQUIDITY**, middle of the night or so for their skullduggery.
2. Never a "drift-down" due to lack of interest, but rather a **SPIKE-Down !**
3. **Volume at tsunami level**, larger than the exchanges, some % of national or Global production.
4. Always **Un-Economic**, in that it is **DUMPED**, rather than fed into the system to make the most profit.
5. **Rebound** and "Back & Fill" movements eventually render the Smack-Down impotent by returning the metal to a higher level, **recapturing** all the previous downmove

These are first five signs I can think of off the top of my head as I work to understand how the shenanigans of the US and Global Western Govts fail to address let alone resolve Global Systematic Financial Failure.

Published that in my blog Jan 2014, after watching all the silliness of "Smack-Downs".
