 for Jun 27, for 321GOLD.Com  
**The 29<sup>th</sup> DAY of June, 2014**

The market does what it needs to get the most people out of position. What would be most distressing here would be to have no discernible correction of real measure, whilst the conventional wisdom has its adherents looking for a bottom test. We see the bottom measure drifting far below NO BUY to a place where a **(StockChartsLink)>CATAPULT** move could take place. This is an option, depending the next move, and some of my Heavy Hitter Measures hint me that it is an option. I am sure you'd like to know so sign up at no risk, so we can share what we are seeing with you.

***Is there any reason we cannot do this for you ?***

*As always with my guarantee, I am betting your subscription payment we can, I take that part of the action.*

THIS is the **29<sup>th</sup> Day**, on which, according to the story, where the pond lilies fill the pond in 30 days by doubling each day, so the pond is either half full or half empty, depending on your perspective. An interesting analyst or two, are calling for a new, lowest bottom, before the Gold price goes to new heights.

Such is NOT indicated in my technical measures Bubba, Gimbo and others. BPGDM which some watch now kicked up to 36.7%, a net 20% gain from the 1<sup>st</sup> week of June to now Follow this [Link <](#) and you will find captioned atop that chart underneath the title of "User-Defined" Mode, the following:

**"STATUS : BULL CONFIRMED, JUNE 20, 2014"** Not only did the measure fail to turn negative, it ramped, maybe not enuf to lose the doubters but enuf to insure those paying attention could make money. Many doubted but I don't think the jury was ever out.

**GOLD MINER OSCILLATOR Analysis**

**Between the 4 Goldbugs facts from hell and the 5 rules of smack-down and the Gold Miner Oscillator, it couldn't be more simple. Its all you need and nothing else.**

**5 Rules of Smack-Down**

**Lets look at the freaky volatility hitting the** metals, and the rules to tell when it's a smack down:

1. Always imposed at time of **ILLIQUIDITY**, middle of the night or so for their skullduggery.
2. Never a "drift-down" due to lack of interest, but rather a **SPIKE-Down** !
3. **Volume at tsunami level**, larger than the exchanges, some % of national or Global production.
4. Always **Un-Economic**, in that it is **DUMPED**, rather than fed into the system to make the most profit.
5. **Rebound** and "Back & Fill" movements eventually render the Smack-Down impotent by returning the metal to a higher level, **recapturing** all the previous downmove

These are first five signs I can think of off the top of my head as I work to understand how the shenanigans of the US and Global Western Govts fail to address let alone resolve Global Systematic Financial Failure.

Published that in my blog Jan 2014, after watching all the silliness of "Smack-Downs".

**4 Gold Bug Facts From Hell**

**HUI broke out of a Monthly Falling Wedge Spring 2013**

**HUI created a double bottom based on 4.3 year cycle Spring of 2013**

**STRAITS of HELL Gap created on HUI 280-300 in the Tax Day Massacre, creating a 15 month "Abandoned Baby".**

**The Tax Day Massacre set up the formation of a 15 month INVERTED Head & Shoulders with its lowest (HEAD) at the beginning of 2014.**

This is going to be far more fun than anyone planned, for Goldbugs.....
