Early Into A Multi-Year Bull Market For Golds  
From A Thoroughly Depressed Base: Another “Buy”  
Juniors: Potential For Outstanding Performance  
Check Out The TSE Venture Chart

- The hit a year ago recorded an unusual loss of confidence.
- The recent low is the result of seasonal drift, with very little interest.
- Perhaps this is completing the bear that started following the 2021 Peak?
- Not to overlook the Sensationally Overbought Peak accomplished in April 2011.
- Within the potential Multi-Year Bull Market, the Juniors could achieve some discoveries.
- Possibly including one of world scale, that would enjoy widespread interest.
