The long term movements of the Dow Jones Industrial Average and the S & P 500 have been, are, and will continue to be based on the Collective Unconscious reaction of stock market participants. This Collective Unconscious reaction has followed The Rule of Alternation ever since the Federal Reserve System was established in the year 1913.

Collective unconscious

<https://www.britannica.com/topic/collective-unconscious>

WRITTEN BY: The Editors of Encyclopedia Britannica

“Collective unconscious, term introduced by psychiatrist Carl Jung to represent a form of the **unconscious** (that part of the **mind** containing memories and impulses of which the individual is not aware) common to mankind as a whole and originating in the inherited structure of the **brain**. It is distinct from the personal unconscious, which arises from the experience of the individual. According to Jung, the **collective unconscious** contains **archetypes**, or universal **primordial** images and ideas.” ***

<http://www.carl-jung.net/archetypes.html>

“We can say that archetypes resemble the instincts in that that they cannot be recognized as such until they manifest in intention or action.”

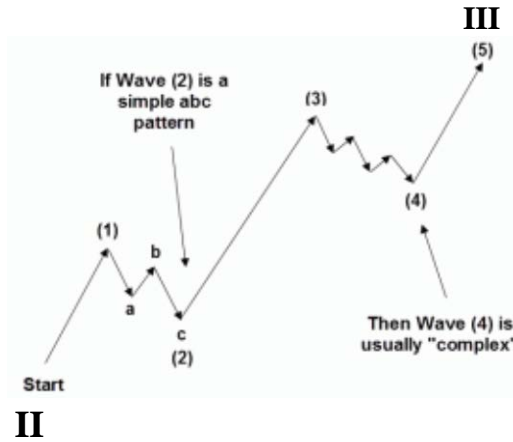

.....

It appears that The Rule of Alternation applied to the stock averages describes the collective unconscious in “action.” Ron R.

.....

“There is a general tendency for the pattern of the two corrective swings in a completed 5-wave sequence to alternate between a simple (very often an ABC) correction and one of the more complicated or “complex” Elliott corrections.”

RON ROSEN - S&P500 INDEX - ELLIOTT MAGIC KEY

The Rule of Alternation has told us that the D. J. I. A. and the S & P 500 have and will continue to move in accordance with a human Collective unconscious response to the financial environment created by the Federal Reserve System of the United States of America. A close examination of this chart will show that gold and silver are an integral part of this Collective Unconscious response.
