UPDATE GOLD AND SILVER

O. K. Rosen, how do you know that the gold and silver market are about to explode and blow the Dollar to *kingdom come*?

Thanks to my schooling and training in the U. S. Navy the answer is simple. The empty hole in the front of the bomb shows that the fuse is missing. When the fuse is missing the bomb cannot explode. Once the fuse is in place and the bomb is dropped the “bloody” place explodes like picture # 2.
