REPORT

**“This above all: to thine own self be true,
And it must follow, as the night the day,
Thou canst not then be false to any man.”**

Hamlet Act 1, scene 3, 78–82

.....

If I am going to be true to myself and therefore not false to anyone I must admit that I believe beyond the shadow of a doubt that the pattern and chart comparisons in this *REPORT* are the truth and completely accurate and to the highest probability have not been posted or mentioned by anyone or any investment organization. Does this mean that I am the only person in the entire investment world that recognizes the fact that the pattern called a *Running Flat Correction* has taken place and is complete on the gold and silver charts? Maybe I am. Here it is in all its glory.

“Apparently in this case, *the forces in the direction of the larger trend are so powerful that the pattern becomes skewed in that direction.*” E. W. P.

Running Flat Correction

It is not possible for me to deny that when gold bullion topped at \$1,033.90 in March 2008 the Dollar Index bottomed one month later at 71.05 in April 2008.

It is not possible for me to deny the fact that when silver topped in March 2008 it then had three waves down, three waves up, and five waves down exactly like the illustration of this running flat correction.

DJIA WEEKLY

Based on all of the information in the charts on the previous 12 pages it is not possible for me to deny the fact that I expect gold, silver, and their shares to embark on a truly huge bull move. I love to look at the charts posted in this *REPORT*.

However, it is always best to remember and not forget that:

“Love looks not with the eyes but with the mind.”
