## SPECIAL REPORT

**“We seek him here, we seek him there,  
Those Frenchies seek him everywhere.  
Is he in heaven? — Is he in hell?  
That damned, elusive Pimpernel”**

*The Scarlet Pimpernel*  
by [Baroness Emma Orczy](#),

**Like a Scarlet nuclear missile elusive but launched from deep beneath the surface capable of destroying vast amounts of inhabited territory, gold and silver bullion have begun their journey aimed at totally destroying the world of financial lies, stupidity, and corruption.**

Ever since the bull market corrections in gold and silver became obvious, I have been writing about them and trying to explain their significance to the future path of the precious metals complex. The corrections in gold and silver bullion are the type that indicates an extremely powerful bull move will follow the end of their corrective process. *Their corrections are complete and have bottomed.* This one line sentence describes accurately and precisely how we should expect the gold and silver markets to perform from here on out!

*“The forces in the direction of the larger trend are so powerful that the pattern becomes skewed in that direction.”* E. W. P.

## Running Flat Correction

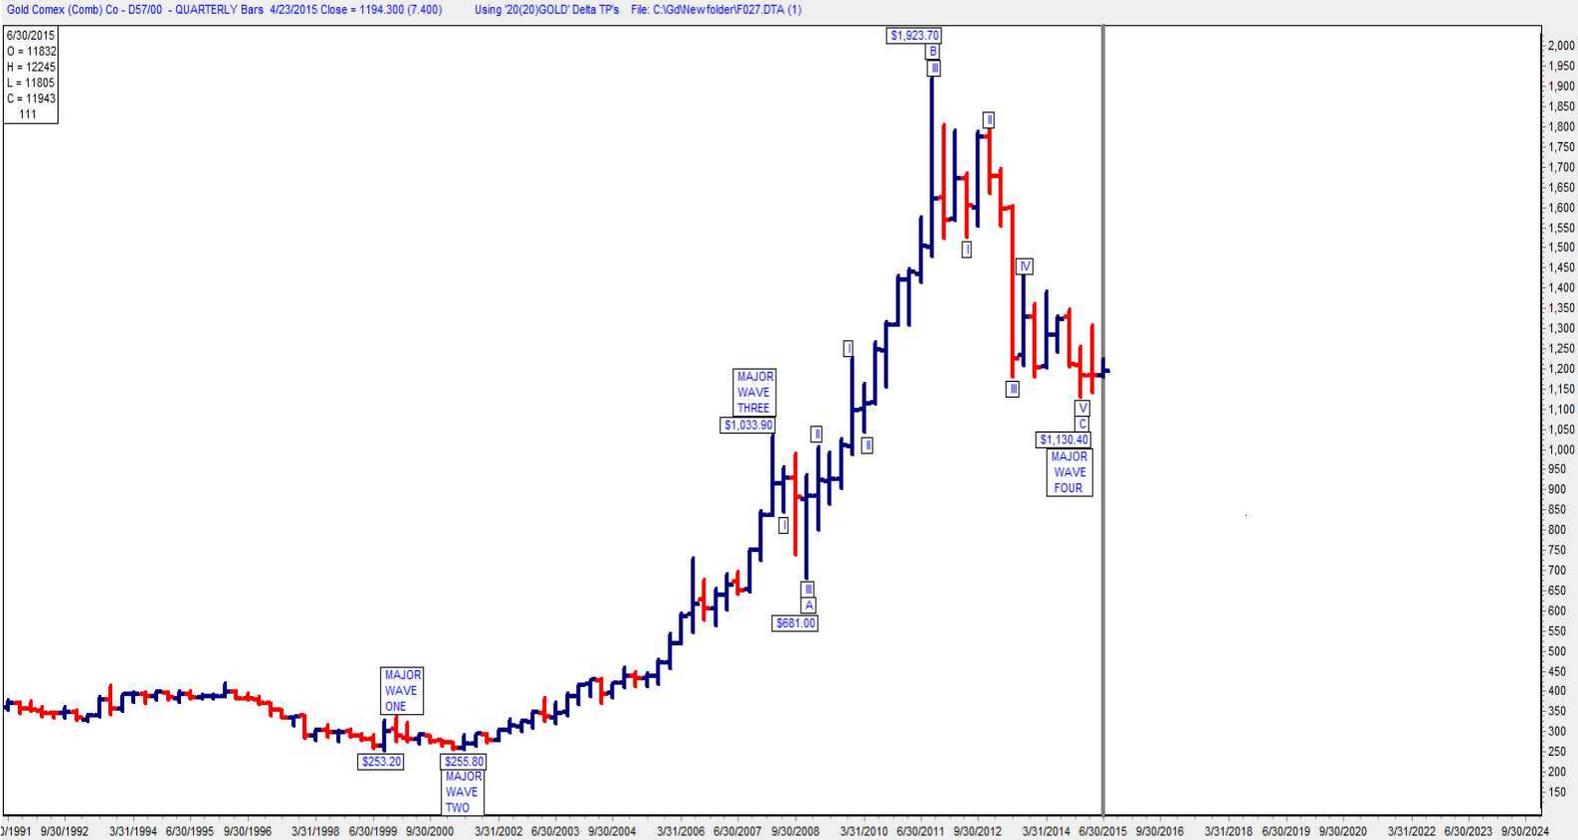

Gold and silver bullion have obviously completed a *Running Flat Correction*. This portends an extreme and rapid rise in price.

*“The forces in the direction of the larger trend are so powerful that the pattern becomes skewed in that direction.”* E. W. P.

What could possibly have caused the most bullish and powerful form of correction to take place in gold and silver bullion? We do not have to look very far or very hard in order to see the cause that has produced the effect that we are about to witness and profit from!! Yes indeed, the brilliant maneuvers of the Federal Reserve and the Treasury of the United States of America, called the Q. E.'s and a Twist for good measure, are responsible for producing the \$\$\$\$effect that will sooth our pockets and our souls. These government enterprises are either stupid or corrupt, or purely political, or a combination of all three plus whatever descriptive words you want to add. When the Q. E.'s began the gold and silver corrections morphed into Running Flat Corrections.

**We can take all the negative precious metal fundamentals and all the negative so called precious metal technicals and all government negative statements about gold and silver and put them where they belong.**

**The correction in gold and silver is over, complete, kaput! Gold and silver bullion have begun their journey aimed at totally destroying the world of financial lies, stupidity, and corruption.**

**The genius of Bernanke, Yellen, and all the other insignificant government lackeys with their Ivy League PhDs are directly responsible for the extreme rise in the price of gold and silver that has just begun. The really big problem they have is that they can't read the simplest of gold and silver charts.**

**It takes an old U. S. Navy enlisted man who spent 60 years studying the markets, attended college on the G. I. Bill and started on Wall Street as a margin clerk to understand the simple basics of reading the gold and silver charts. This is it folks!**

**Tally Ho! Gold and silver are on the go!  
Mother Nature not the Fed says it is so!**
