RONALD L. ROSEN
July 20, 2015

REPORT

It is a very rare occasion when gold and silver bullion send a Special Invitation to the public that says loud and clear, “It is time to join us on this trip to heights at the moment beyond your mortal vision. Consider this a bullish wedding anniversary trip to the heavens.”

[Download](#)

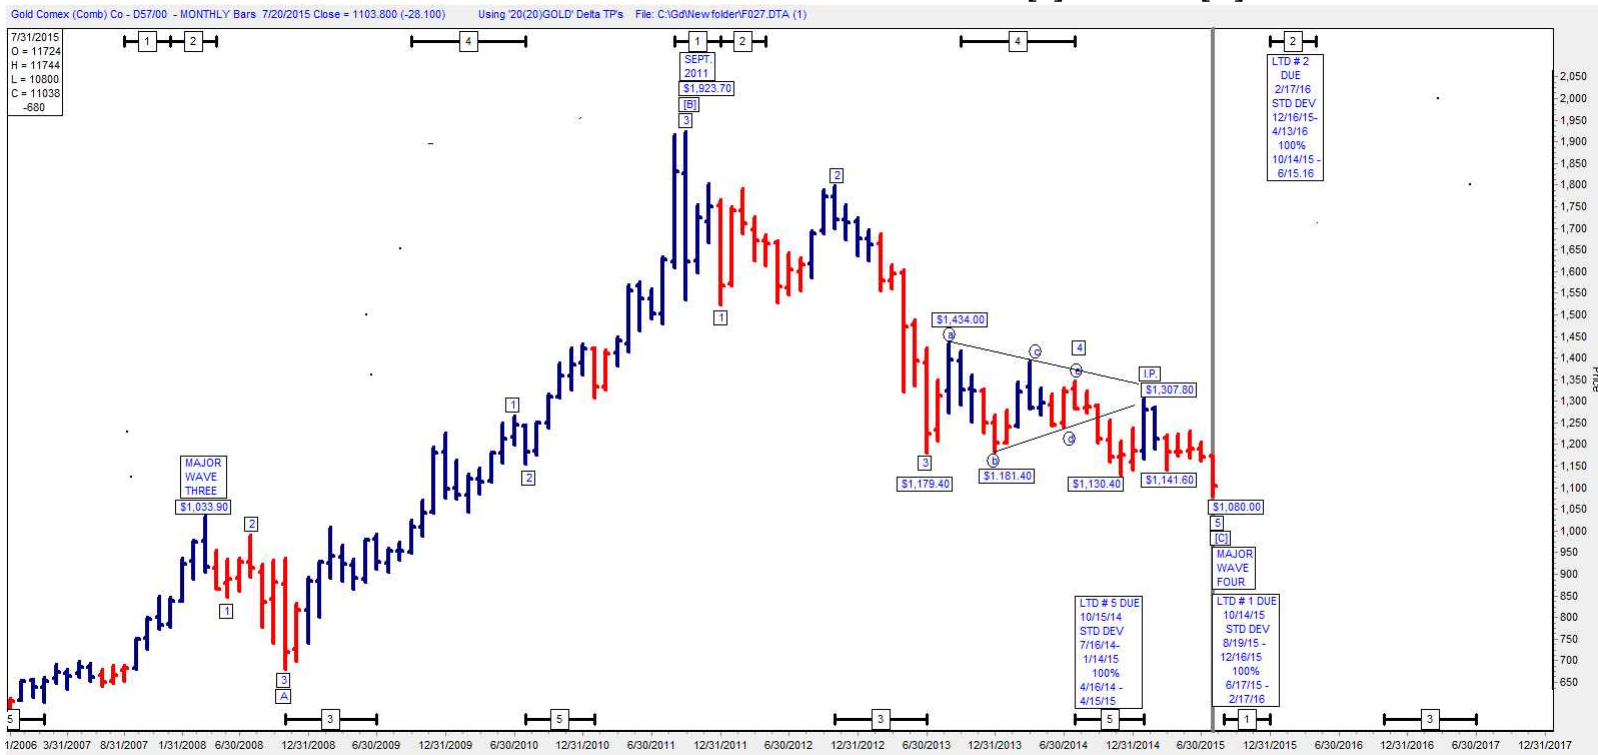

A triangle always occurs in a position prior to the final actionary wave in the pattern of one larger degree, i.e., as wave four.”
Elliott Wave Principle

“Post-triangle advancing impulses in commodities at degrees above Intermediate are usually the longest wave in the sequence.”
Elliott Wave Principle

“The best approach seems to be to avoid trying to analyze each issue on an Elliott basis unless a clear, *unmistakable wave pattern unfolds before your eyes and commands attention.*”
Elliott Wave Principle

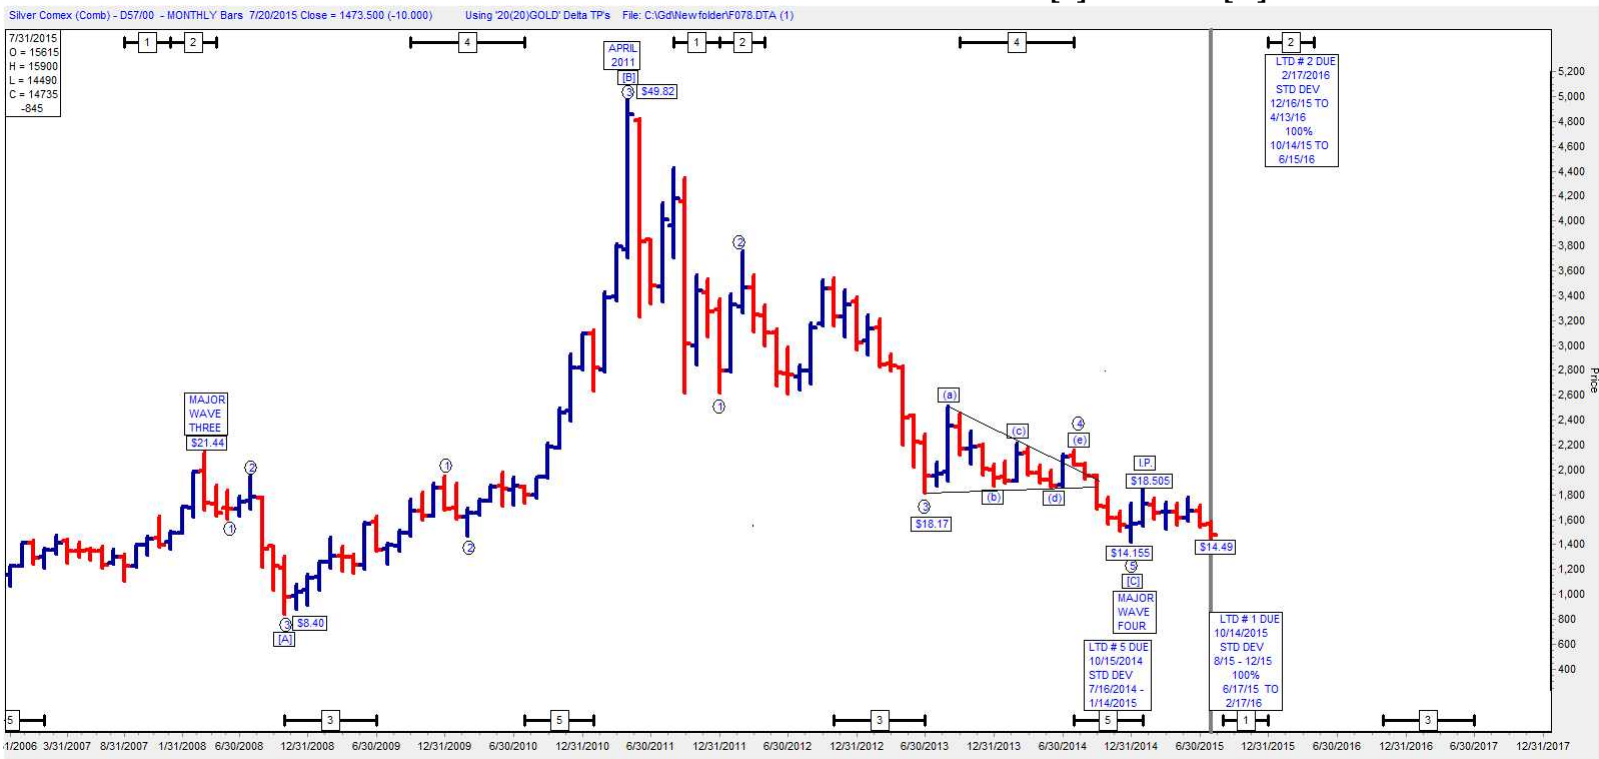

“A triangle always occurs in a position prior to the final actionary wave in the pattern of one larger degree, i.e., as wave four.”
Elliott Wave Principle

GOLD MONTHLY WITH TRIANGLE AS WAVE [4] OF LEG [C]

“A triangle always occurs in a position prior to the final actionary wave in the pattern of one larger degree, i.e., as wave four.”
Elliott Wave Principle

SILVER MONTHLY WITH TRIANGLE AS WAVE [4] OF LEG [C]

A REMINDER

GOLD AND SILVER WILL BE STARTING THEIR *MAJOR WAVE FIVE* ONCE THIS CORRECTION IS COMPLETE.
.....

“In contrast to the stock market, commodities most commonly develop extensions in *fifth* waves within Primary or Cycle degree bull markets. This tendency is entirely consistent with the Wave Principle, which reflects the reality of human emotions. Fifth wave advances in the stock market are propelled by *hope*, while fifth wave advances in commodities are propelled by a comparatively dramatic emotion, *fear*: fear of inflation, fear of drought, fear of war. Hope and fear look different on a chart, which is one of the reasons that commodity market *tops* often look like stock market *bottoms*.” **E. W. P.**
