RONALD L. ROSEN
November, 2016

REPORT

It matters not who wins the election for President in the United States of America because everything necessary for a massive explosion is built in. The bomb is in the air and ready to be dropped. We are about to witness a financial Hiroshima. Everything necessary for total devastation is programmed in and cannot be painlessly removed. I did see the Hiroshima aftereffects first hand in 1951. Regardless of what any expert or collection of experts or politicians say or predict this is it. The charts posted in this REPORT should frighten, and panic the unaware more than all the Halloween masks ever created.

Dropping atomic bomb

Hiroshima 1951

At the age of 85 it's a little late in the game for me to begin giving away things of great value. However, here they are anyway. If you want to join my crew ... great ... you are more than welcome to do so. Either way, study these charts until they are cemented into your mind. Once you have fully absorbed their message you will be able to help yourself and your subscribers if you are a writer. Their message is simple, obvious, and undeniable! Many so called big shots on Wall Street insult us and smirk at us by calling us "Gold Bugs." Well, you have heard this before, "He who laughs last, laughs best." Read this REPORT, study it, absorb it, fully recognize and understand the message that comes with each chart. It is always, always the long term charts that that tell us what will happen in the short term. For my fellow, "Gold Bug" writers, we should band together before we all get banned! Ron Rosen

First and foremost, this is absolutely the most important message we have been sent. It is a message from the technical “Gods” of the gold and silver markets. We best heed, pay attention to, follow and obey this message if we want to survive and prosper.

Genesis 1:3 King James Version (KJV)

³ And God said, Let there be light:
and there was light.

“The forces in the direction of the larger trend are so powerful that the pattern becomes skewed in that direction.” E. W. P.

Running Flat Correction

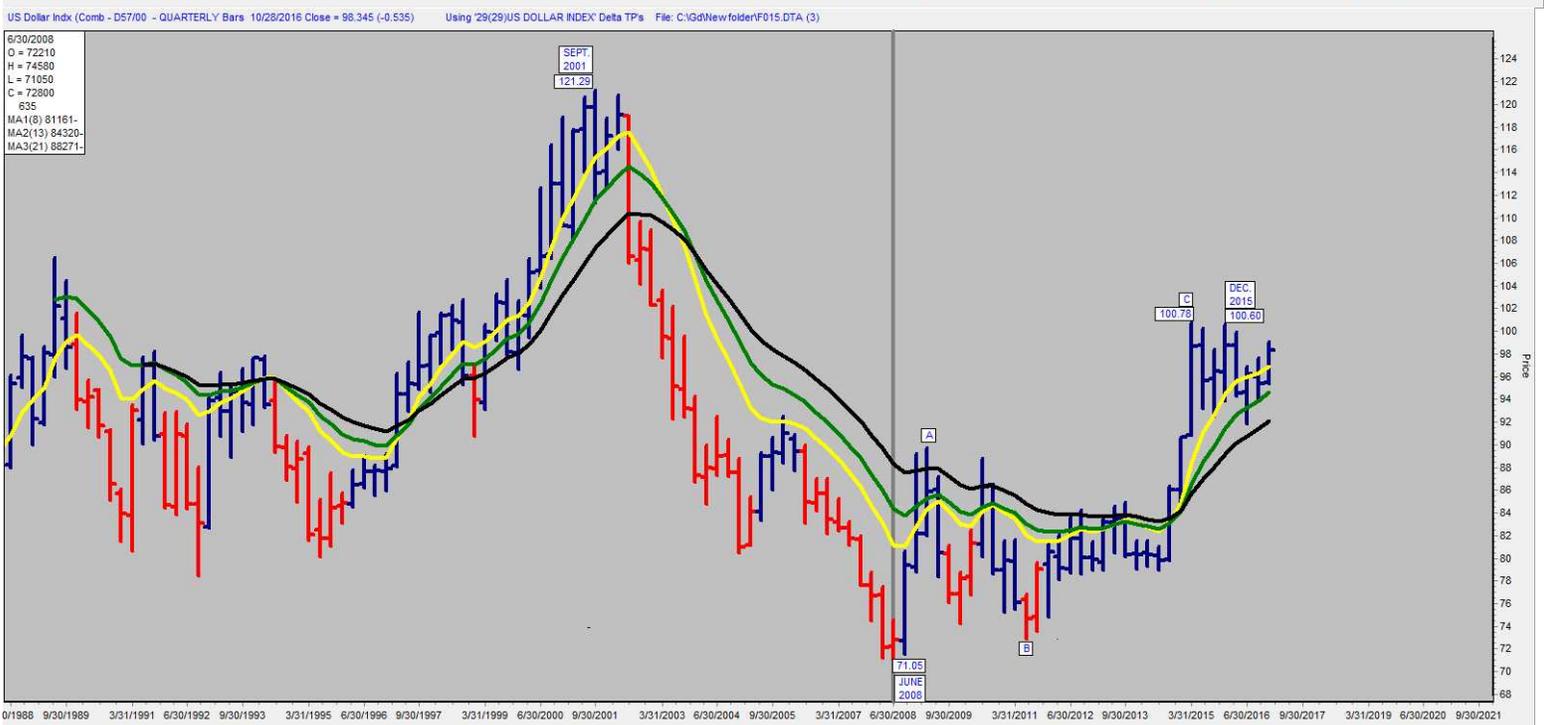

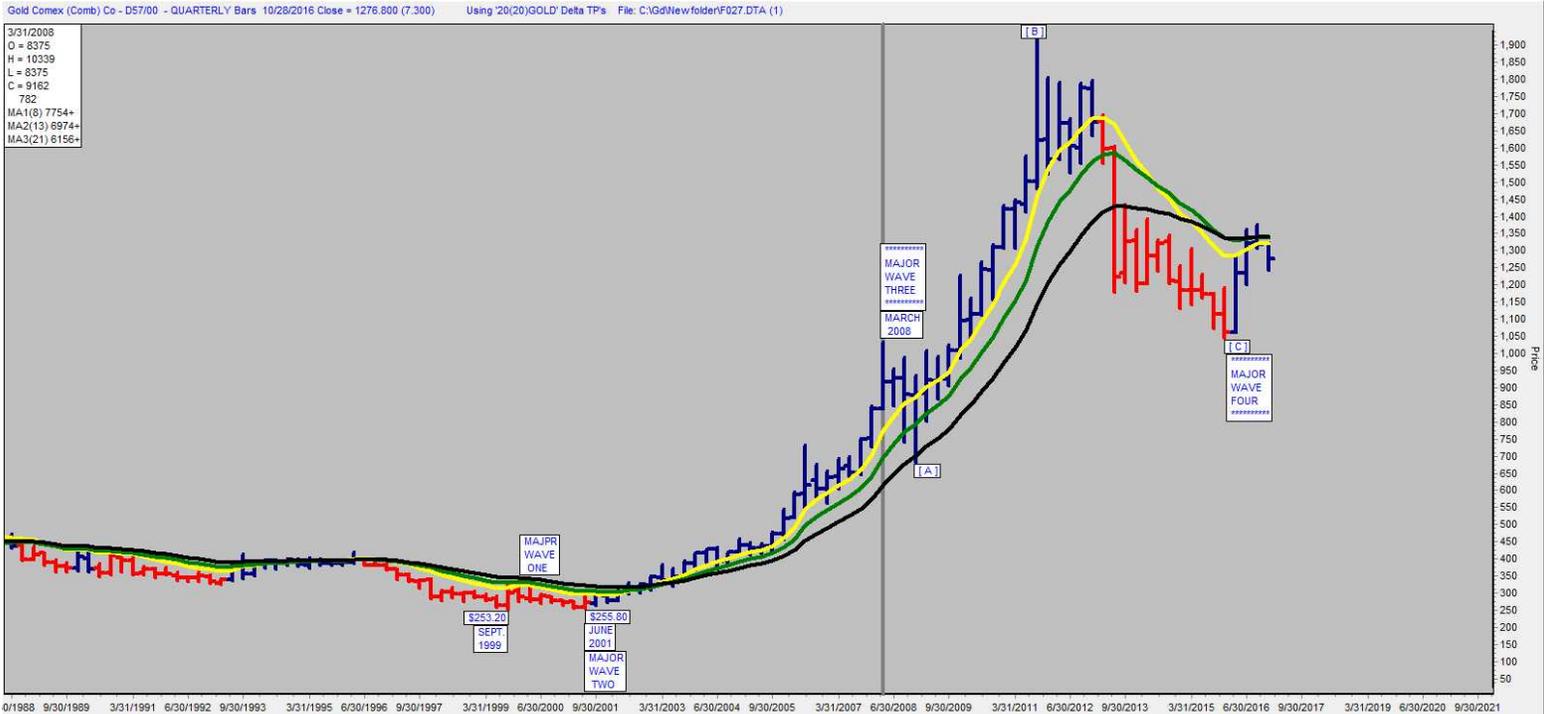

Gold began a bull market Running Flat Correction just before the Dollar Index began a bear market A, B, C, zig-zag correction.

Running flat

GOLD QUARTERLY CHART # 1

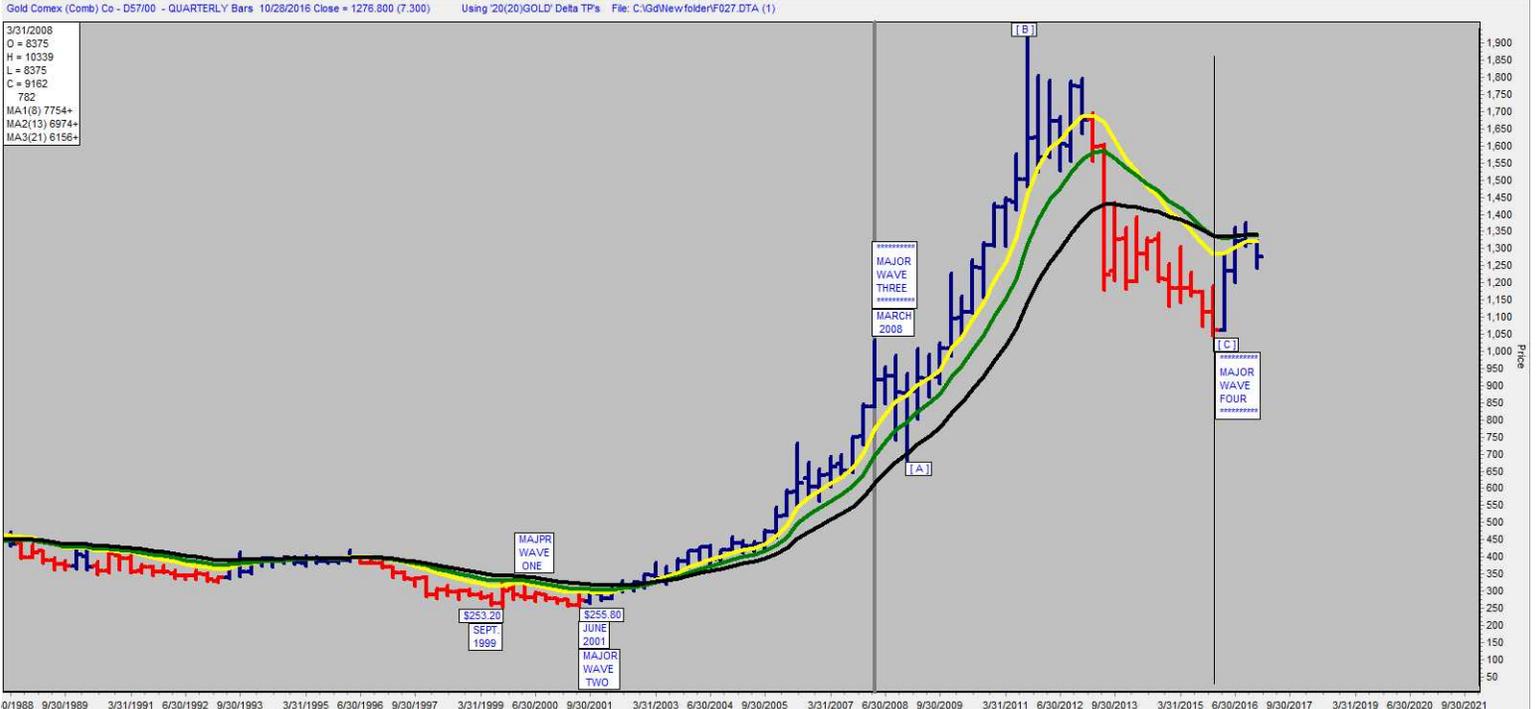

DOLLAR INDEX QUARTERLY CHART # 1

The bull market Running Flat Correction in gold bottomed at approximately the same time that the bear market A, B, C, zig-zag correction in the Dollar Index made a double top.

GOLD CHART QUARTERLY # 2

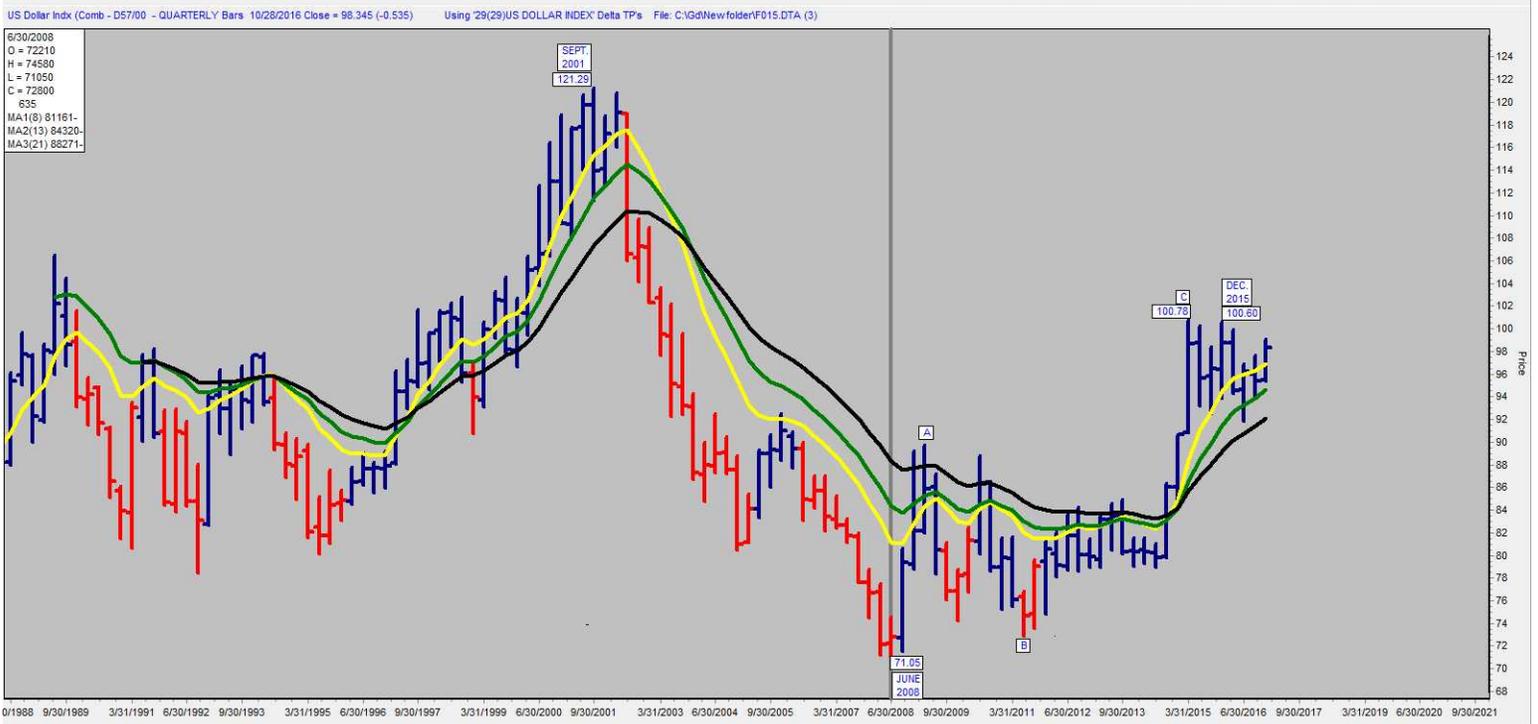

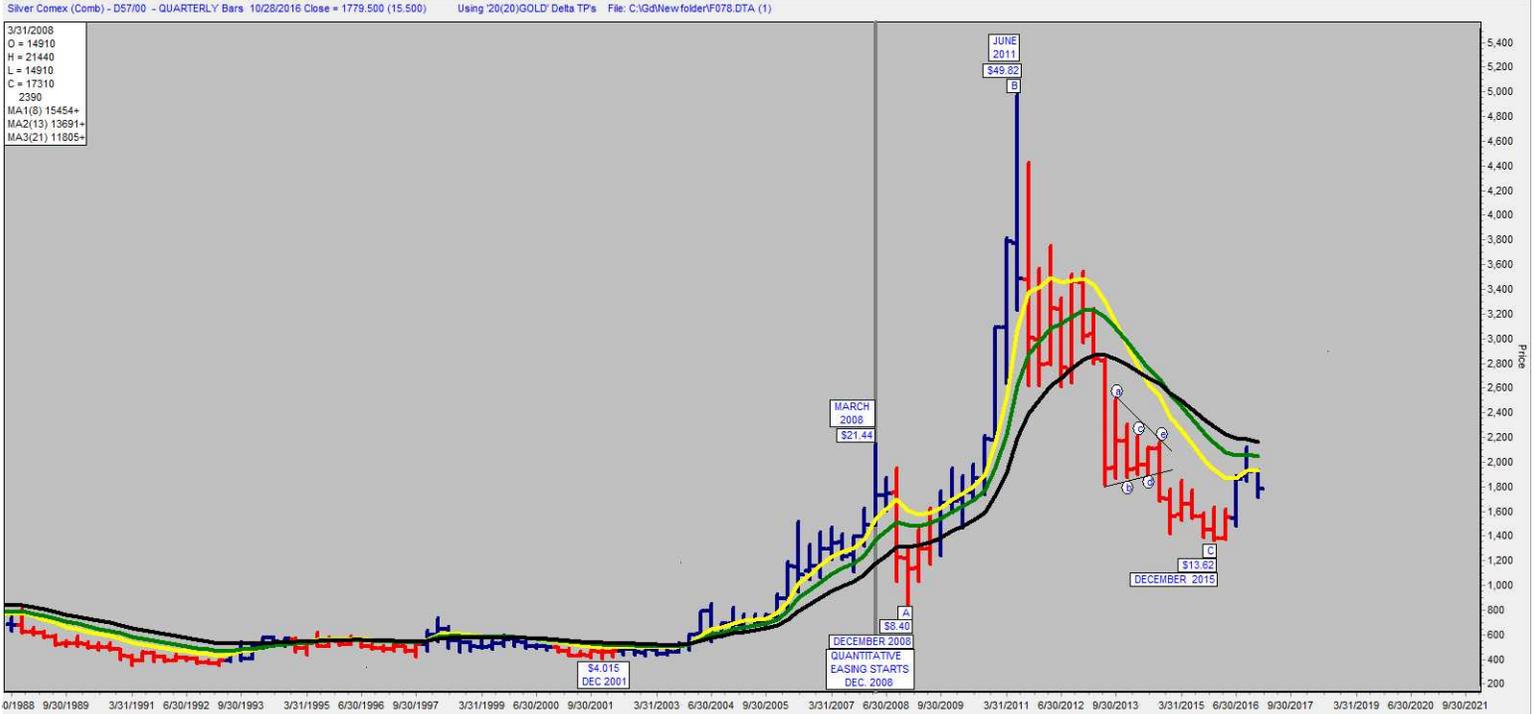

DOLLAR INDEX QUARTERLY CHART # 2

Silver began a bull market Running Flat Correction just before the Dollar Index began a bear market A, B, C, zig-zag correction.

SILVER CHART QUARTERLY # 1

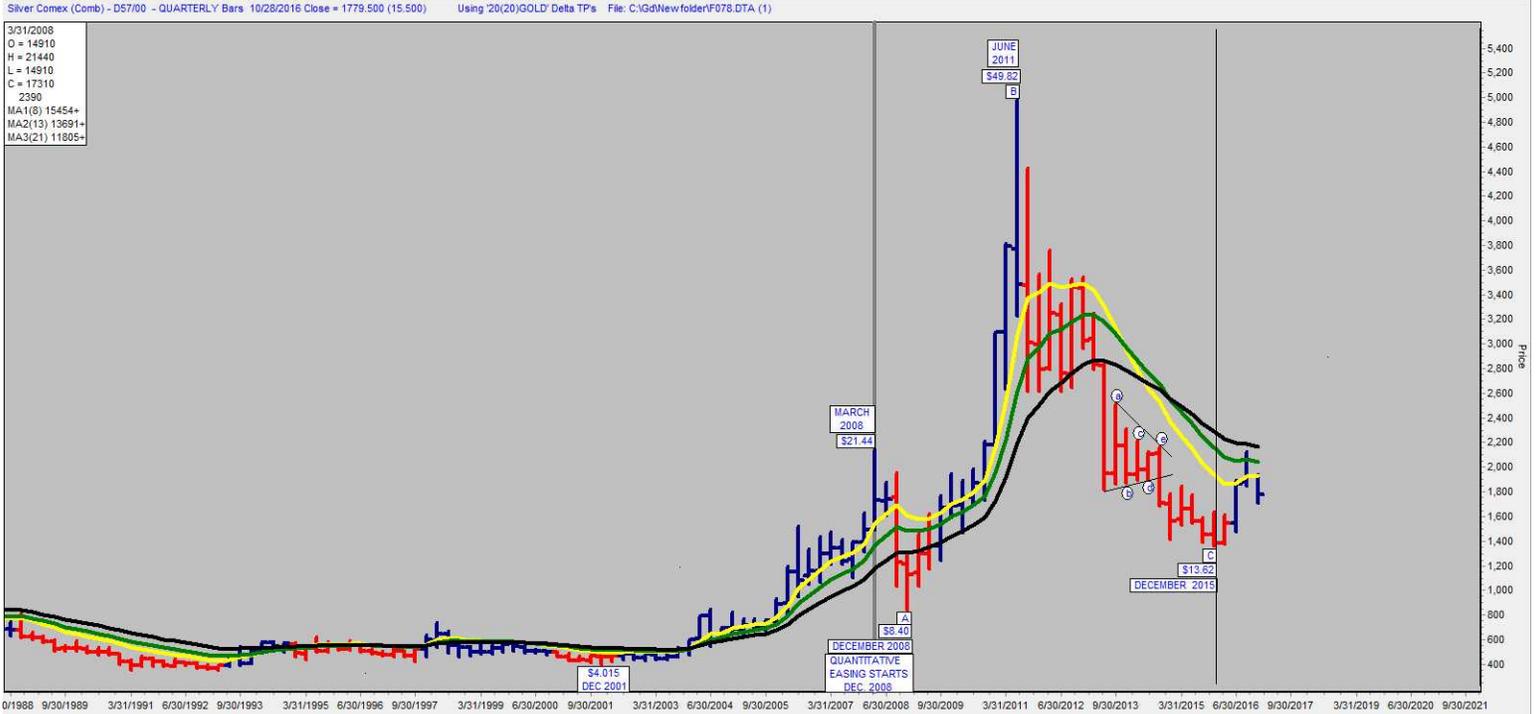

DOLLAR INDEX QUARTERLY CHART # 3

The bull market Running Flat Correction in silver bottomed at approximately the same time that the bear market A, B, C, zig-zag correction in the Dollar Index made a double top.

SILVER QUARTERLY CHART # 2

DOLLAR INDEX QUARTERLY CHART # 4

Money is flowing into gold when the red MFI line is trending down! Money is flowing out of gold when the red MFI line is trending up! *Of great significance is the fact that money began flowing into gold just before the Dollar Index topped at 100.78!!*

GOLD QUARTERLY CHART # 3

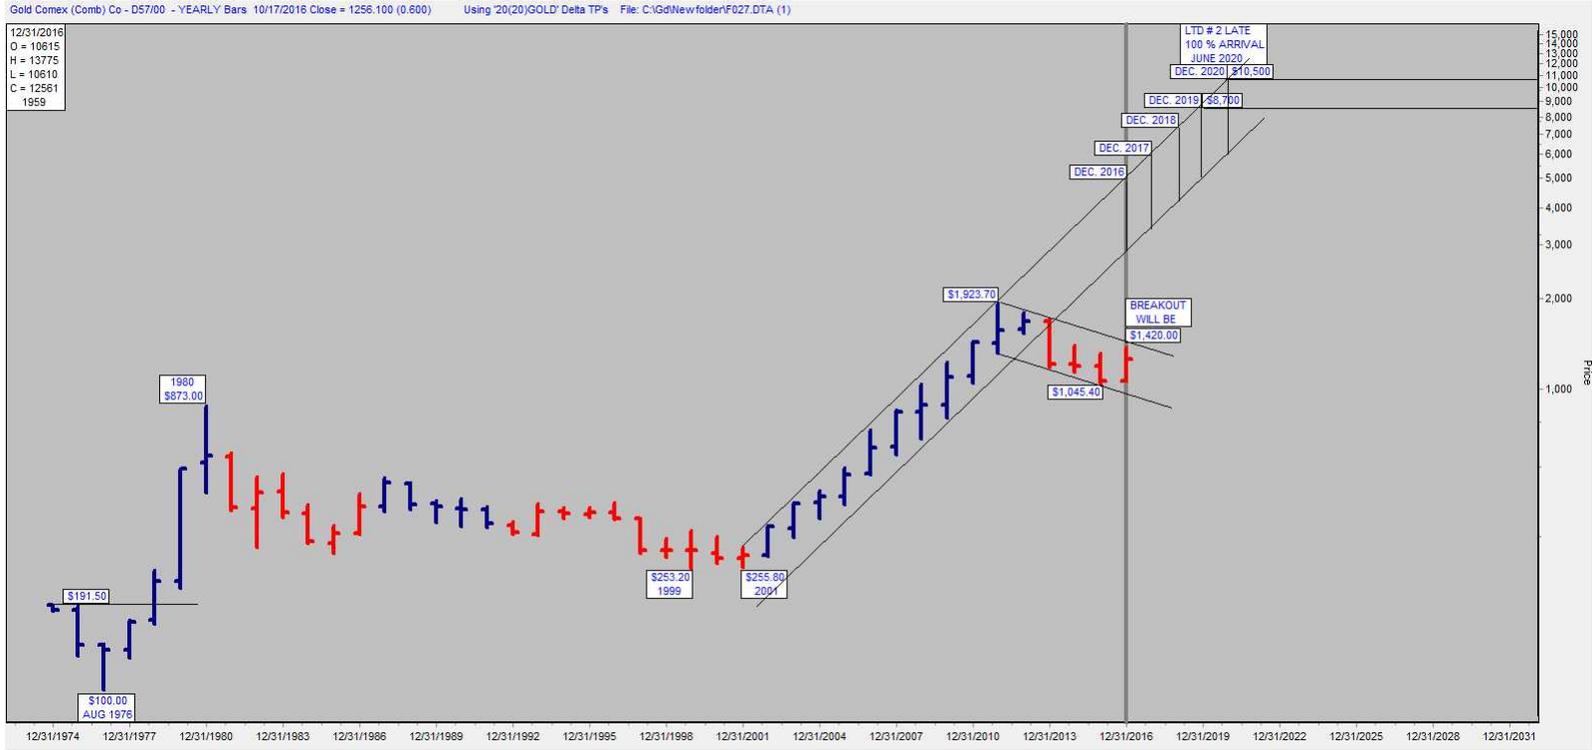

DOLLAR INDEX QUARTERLY CHART # 5

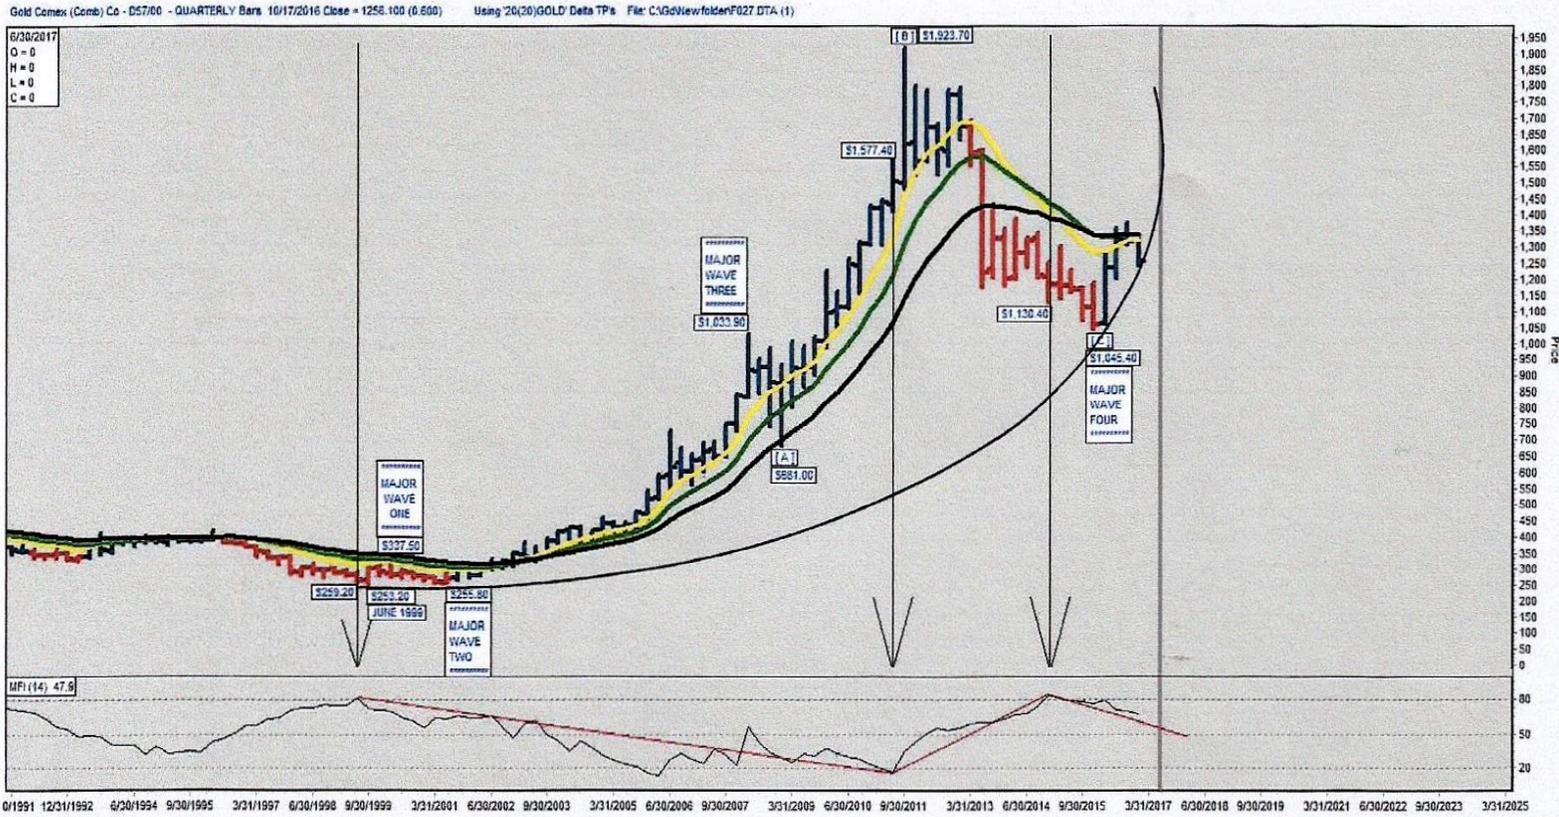

The devastation accompanying the explosion may result in a top in the price of gold in the vicinity of \$10,500.00.

GOLD YEARLY LOGARITHMIC

There is virtually no time left before the explosion begins.

GOLD QUARTERLY

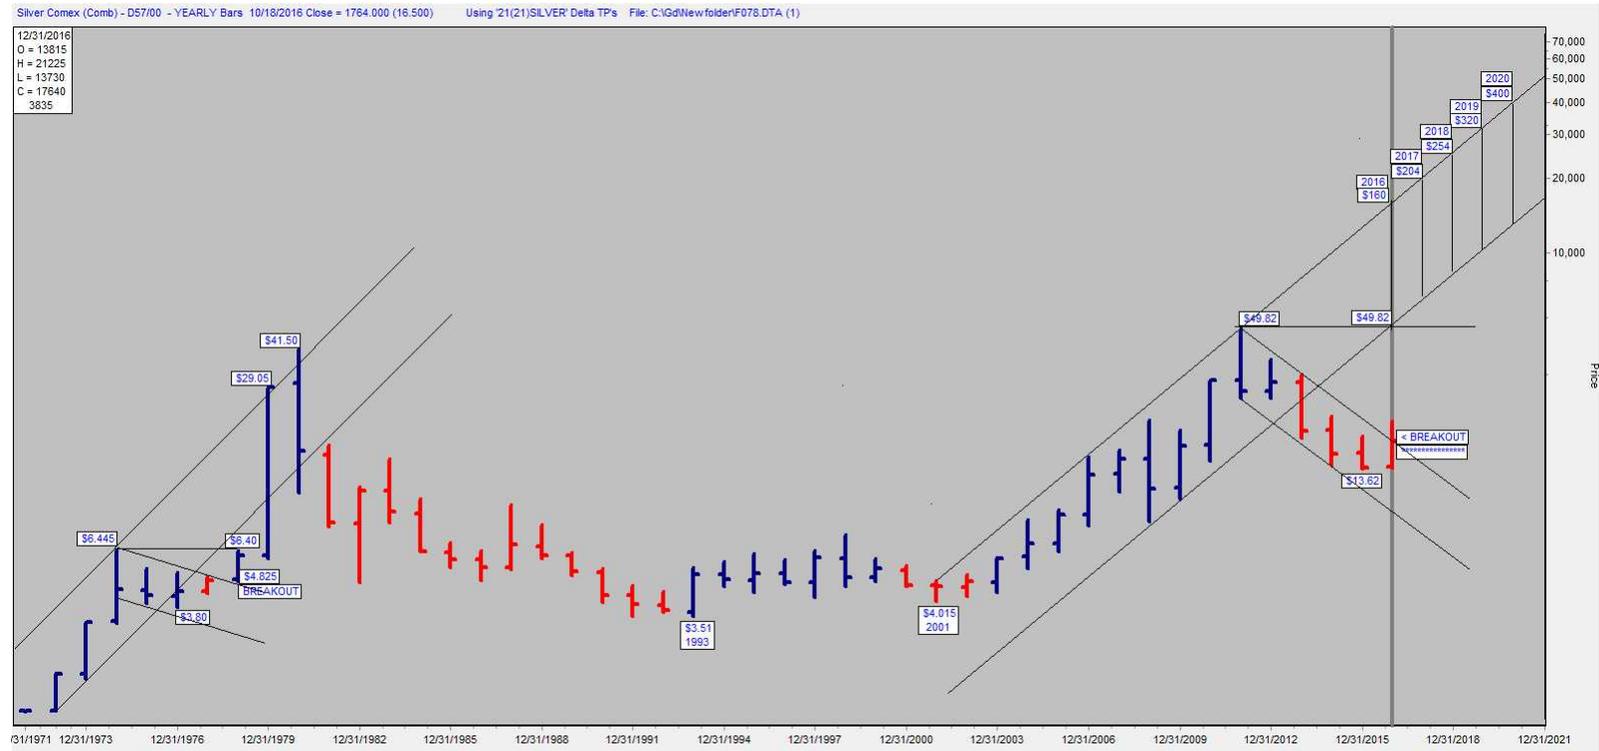

If the explosion causes silver to reach the upper trend line we will see a price of approximately \$400.00.

A \$10,500.00 gold price and a \$400.00 silver price would result in a gold/silver ratio of approximately 26 to 1.

In 1980 the gold/silver ratio at the top was 17 to 1. That was \$850.00 gold and \$50.00 silver.

SILVER YEARLY LOGARITHMIC
