## SUNDAY SILVER SERMON

---

**The Low for silver is in! This low was made at \$13.62. It was tested at \$13.86.**

### SILVER QUARTERLY

Thanks to the addition of the “brilliantly” bullish quantitative easing by the Federal Reserve, a normal correction in silver that began at the Major Wave Three high of \$21.44 became a monstrously bullish extremely rare *Running Flat Correction*. Quantitative Easing began at the Leg A low of \$8.40. Leg B, as a result of Q. E., rose from a low of \$8.40 to a high of \$49.82. Leg C down was a perfectly normal Running Flat Corrective wave C down. Yes, the Monstrously Bullish Running Flat Correction bottomed at \$13.62.

“The forces in the direction of the larger trend are so powerful that the pattern becomes skewed in that direction. E. W. P.

*Running Flat Correction*

**SILVER QUARTERLY**

At the bottom left hand side of this chart you can see the Running Flat Corrective low that was made at \$13.62 in the week of December 18, 2015. The first minor leg up of *Major Wave Five* began at \$13.62 and topped at \$21.225. The following minor leg down naturally tested the Running Flat Corrective low of \$13.62. Since silver has begun its *Major Wave Five* it is important to know what a commodity *Major Wave Five* entails.

“In contrast to the stock market, *commodities most commonly develop extensions in fifth waves* within Primary or Cycle degree bull markets. This tendency is entirely consistent with the Wave Principle, which reflects the reality of human emotions. Fifth wave advances in the stock market are propelled by hope, while fifth wave advances in commodities are propelled by a comparatively dramatic emotion, fear: fear of inflation, fear of drought, fear of war.” E. W. P.

Fear of inflation and fear of war should be surfacing as Major Wave Five proceeds to climb in price.

### SILVER WEEKLY

**A close above \$14.54 will be the first small confirmation that the bull move in silver has resumed. Once we know that the bull move has resumed there is only one question left to ask. That question is ...**
